FRONT COVER: It has familiar lines, but most of us were hard pressed to quickly identify this "Chrome Cub" as a Piper PA-14. The Met-Co-Aire conversion is owned and flown by Jim Thomas. Read all about it starting on page 13. EAA photo by Lee Ann Abrams, shot with a Canon EOS1n equipped with an 80-200 mm lens on 100 ASA slide film. EAA Cessna 210 flown by Bruce Moore.

BACK COVER: Kendra Spak of Poplar Grove, Illinois lives in the airpark adjoining the airfield, and as a new pilot, she's been inspired by the pioneering flights of Amelia Earhart. Her pencil tribute to Earhart earned an Excellence ribbon from the jury of the 2002 EAA Aviation Foundation's Sport Aviation Art Competition. See the VAA News starting on page 2 for more information on entering the 2003 edition of the competition.
