COVERS

FRONT COVER: The Bucker Jungmeister has long been acknowledged as one of the premier aerobatic aircraft of all time. Englishman Tony Smith has restored this example, finished in the disconcerting markings of a pre-WW-II German "flying club." EAA photo by Jim Koepnick, EAA photo plane flown by Bruce Moore.

BACK COVER: *Santos-Dumont: The Beginning of Everything* is the title of this oil painting by accomplished Brazilian artist Mauro José de Godoy Moreira. Santos-Dumont is considered by his countryman to be the father of modern aviation, and his accomplishments in both lighter-than-air balloons and dirigibles, as well as his work with the heavier-than-air *14bis* and *Demoiselle* airplanes are honored by aviators and historians world wide. Entries for the 2006 EAA Sport Aviation Art Competition are being accepted. Visit www.airventuremuseum.org/art/, call the EAA Museum office at 920-426-6880, or e-mail EAAArtComp@eaa.org for information regarding this year's event.
