COVERS

FRONT COVER: Herb Clark's goal from the beginning was to give his custom Waco UPF-7 more performance, without permanently changing a single thing. Powered by the Russian M14P Vendenyev radial engine, the "UPFski" turns heads wherever it goes. See the article starting on page 8. EAA Photo by Jim Koepnick.

BACK COVER: Award-winning aviation artist Barry Ross, best known for his continuing series of illustrations for *Flying* magazine's *I Learned About Flying From That* (ILAFFT) column, shares this tropical illustration of a Grumman Goose. Barry's paintings are part of an exhibition of his ILAFFT work at the EAA AirVenture Museum. For more on the artwork of Barry Ross, you can visit his website at www.BarryRossArt.com.
